British Columbia Pharmacy Practice Residency Comprehensive Oral Assessment

PWDT COMPONENT: Medical History

ID of patient

C/C

HPI

PMH

STANDARD: The resident utilizes multiple sources of information for data gathering including, but not limited to, the patient health record and the patient directly. Gathers information in a systematic and thorough manner. Independently differentiates between relevant and irrelevant data. Presents pertinent information and explains its significance in relation to the specific patient.

☐ Medical History reviewed

Comments:

PWDT COMPONENT: Drug History

Prescription drugs

OTCs

Alternative therapies

Smoking/ Alcohol

Street drugs

Allergies / Intolerances

Immunizations

STANDARD: The resident should be able to provide a complete medication history through a review of the patient chart and initial patient interview. The resident should be able to state the indication and duration of therapy for all drugs the patient was receiving prior to admission.

☐ Drug History reviewed

Comments:

PWDT COMPONENT: Review of systems

Head-to-toe approach.

STANDARD: The resident should be able to provide all objective pertinent findings and be able to explain the significance of the findings.

☐ Review of Systems presented

Comments:

PWDT COMPONENT: Current Drug Therapy

STANDARD: The resident should be able to list the in-hospital orders & qualify the use

☐ Current Drug Therapy reviewed

Comments:

PWDT COMPONENT: Medical Problem List

STANDARD: The resident identifies a thorough and comprehensive list of all medical problems, accurately prioritized with appropriate justification. The resident articulates how the chief medical problem may affect coexisting conditions.

☐ Medical Problem list reviewed

Comments:

PWDT COMPONENT: Drug Therapy Problems (DTP)

STANDARD: The resident utilizes a systematic approach to identify all actual and potential drug therapy problems by integrating relevant patient data and therapeutic knowledge. The resident is able to prioritize based on level of acuity, and provide appropriate justification.

☐ DTP list reviewed

Comments:

PWDT COMPONENT: Goals of Therapy for the Primary DRP

STANDARD: The resident identifies and justifies appropriate desired outcomes and integrates the patient's person values and preferences.

☐ Goals of therapy identified

Comments:

PWDT COMPONENT: Therapeutic Alternatives for the Primary DTP

Efficacy

Adverse effects

Patient factors

Administration issues

Cost

STANDARD: The resident integrates relevant patient data to identify and justify viable therapeutic alternatives. Discusses pros and cons of all viable therapeutic alternatives. Anticipates consequences of each alternative.

☐ Therapeutic alternatives reviewed

Comments:

PWDT COMPONENT: Therapeutic Recommendations For Primary DTP

STANDARD: The resident makes a comprehensive therapeutic recommendation for the primary DTP. Defends recommendations to the evaluators and anticipates their questions and concerns.

☐ Therapeutic recommendation made

Comments:

PWDT COMPONENT: Monitoring Parameters/Follow-up For the Primary DTP

Efficacy

Toxicity

STANDARD: The resident designs an appropriate and comprehensive patient-specific monitoring plan, and provides rational justification for these decisions. Anticipates possible outcomes.

☐ Monitoring plan reviewed

Comments:

PWDT COMPONENT: Patient Education Issues

STANDARD: The resident assesses the patient's understanding of the medication interventions and his/her ability to adhere to the care plan for the primary DTP. The resident effectively describes the patient education and counselling that will be provided for the primary DTP using patient-friendly terminology.

☐ Patient Education reviewed

Comments:

PWDT COMPONENT: Written Documentation for Primary DTP

The resident documents identification and assessment of the primary DTP and therapeutic plan (recommendation) to resolve the DTP in an organized, relevant and concise manner.

☐ Clinical note reviewed

Comments:

General Questions (Questions may address the resident's analysis of the other identified DTP's if time allows)

The resident provides justification and/or concepts, theories and specific information, as requested by the examiners in the course of discussing the case.

☐ General questions reviewed (if applicable)

Comments:

Other Evaluator Comments

*Overall Assessment Outcome

☐ Fail

☐ Pass
